## Rail crossing repairs reduce lane widths near Lac La Biche

*Lac La Biche...* Motorists are advised to expect delays and reduced lane widths on Highway 881 north of Lac La Biche.

Starting July 21, crews will begin repairing a rail crossing on the highway approximately 15 kilometres north of Lac La Biche. Lane widths will be reduced to 4.5 metres during the work and vehicles wider than this are advised to take alternate routes. Repairs will be completed by July 23, weather permitting.

Motorists should use caution in the area and obey all signs, message boards, and flag people. Motorists are reminded that fines for speeding are doubled through construction zones when workers are present.
