## **Periodic Dunvegan Bridge closures delay motorists**

*Grande Prairie...* Motorists using the Dunvegan Bridge on Highway 2 between Rycroft and Fairview may experience delays of up to 20 minutes starting April 29 and continuing throughout the summer to allow for the installation of 192 precast concrete deck panels.

Installation of each deck panel will require a bridge closure of approximately 10 to 20 minutes. The bridge will be closed between one to four times per day, weather permitting. A complete closure of the bridge is required during the installation of the deck panels for the safety of motorists and workers.

Work on the \$17.8-million bridge deck replacement project will continue through to October 31, 2009.

Traffic lights located on either side of the bridge will continue to direct traffic during construction. Motorists are asked to use caution in the area and obey all signs, traffic signals and flag people.
