## **Construction temporarily limits access to Milk River**

*Milk River...* Motorists are advised that construction of the Highway 4 bypass at Milk River will temporarily reduce access options to the town and tourist information centre from the highway.

The only access to Milk River from Highway 4 will be via the highway's intersection with 10 Avenue at the north end of the town. The access limits are required to complete the highway's new southbound lanes and the new south access to the town. The work will be completed and the south access open to traffic by July 20, weather permitting. Speed limit will be reduced to 80 km/h through the construction area.

Motorists should use caution in the area and obey all signs, message boards, and flag people. Motorists are reminded that fines for speeding are doubled through construction zones when workers are present.
