Bridge repairs disrupt nighttime traffic on QEII near Leduc

Leduc... Bridge deck surfaces on the QEII near Leduc will be seal coated on July 13 from 9 p.m. to 5 a.m., weather permitting. The bridges are located at the Highway 2A overpass, Highway 39 overpass, and CPR overpass.

Traffic on the QEII will be restricted to one lane in each direction and the highway speed will be reduced to 50 kilometres per hour.

Motorists should use caution in the area and obey all signs and flag people. Motorists are reminded that fines for speeding are doubled through construction zones when workers are present.
