Bridge work disrupts traffic on Highway 663 east of Lac La Biche

Lac La Biche... Motorists can expect speed reductions on Highway 663 over Needle Creek, east of Lac La Biche, for a bridge culvert replacement. The speed limit within the construction zone will be reduced to 50 kilometres per hour. Construction work began Nov. 1 and will be completed by Nov. 25, weather permitting.

Motorists should use caution in the area and obey all signs and flag people. Motorists are reminded that fines for speeding are doubled through construction zones when workers are present.
