Bridge deck rehabilitation delays traffic near Peace River

Peace River... Motorists can expect delays on the bridge carrying Highway 2 over the CN Rail line west of Peace River.

Work is underway to rehabilitate the bridge deck. Traffic will be reduced to alternating single-lane controlled by traffic signals. The lane width will be reduced to 4.5 metres. The speed limit will be reduced to 50 km/h through the construction zone.

The work will be completed by November 30, weather permitting.

Motorists should use caution in the area and obey all signs, message boards, and flag people. Motorists are reminded that fines for speeding are doubled through construction zones when workers are present.
