

Protected A (when completed)

Personal information you provide on this form is collected under the authority of s.33 of the *Freedom of Information and Protection of Privacy* (FOIP) Act. The information is collected by Alberta Environment and Protected Areas (EPA) to process, administer and manage your application for the Watershed Resiliency and Restoration Program. Your personal information will not be used or disclosed for any other purpose by EPA unless required to do so by law. Questions about collection, use or disclosure of this information can be directed to: Watershed Resiliency and Restoration Program Coordinator at: wrrp@gov.ab.ca.
2nd Floor, Petroleum Plaza, South Tower, 9915 - 108 Street NW Edmonton, AB, T5K 2G8

The Watershed Resiliency and Restoration Program (WRRP), administered by EPA, provides grants to municipalities and organizations for the design and construction of projects that enhance watershed resiliency to impacts from flooding and drought and help to ensure public safety is protected. WRRP is governed by the [Watershed Resiliency and Restoration Program Overview and Application Guide](#). Review the application guide for project eligibility.

Depending on Ministry priorities and available funding, this application and proposal will be considered for funding under WRRP. This application is made to the Minister of EPA for a grant pursuant to the Ministerial Grants Regulation, A.R 215/2022 [refer also to the Designation and Transfer of Responsibility Regulation, A.R 11/2023, Section 9].

Applications must be received by 11:59 PM, September 15th by email to wrrp@gov.ab.ca.
Additional information is available at <https://www.alberta.ca/watershed-resiliency-and-restoration-program.aspx>

Select Project Type (check all that apply)

Conservation, Restoration or Enhancement

Stewardship, Education and Outreach

Research, Data or Tool to support watershed resiliency

Brief Project Description (limit to 200 words)

Project Proposal

Description of the project, including outcomes, objectives, measurable targets (include metrics e.g. total number of hectares to be restored, number of individuals trained, etc.) and rationale as to how the project will improve flood and drought resiliency.

Detailed description of methodology and process for completing the work, including monitoring and evaluation plan, targets and process used to evaluate success in achieving program objectives.

Project work plan or timelines, including milestone dates.

Brief description of project partners and their role in the project. Provide up to three relevant letters of project support from stakeholders and project partners.

Stakeholders and public outreach plan, including recognition for EPA's contribution to the project.

Map or aerial photos clearly delineating your project location(s). If project outcome is provincial in scope, please select Provincial.

Municipality/County

Provincial

Attached image or digital file (e.g. GIS file, (shp, kml, gdb) showing project location)

To attach an image or file, click below.

Assessment of data considerations (NOTE: it is best to do this early in the project planning)

Contact the program area (wrrp@gov.ab.ca) if any EPA datasets are requested for the project that require acquisition or permissions to be obtained (examples include LiDAR, orthophotos, satellite imagery, parcel mapping that are not publicly available). Provide a GIS file (shp, kml, gdb) identifying the area of the project.

State if the project intends to share/publish data derived from spatial datasets not publicly available and what those derived products will be.

Confirmation

I confirm that the information included in this application is correct and complete.
