

# Kordhinta helitaanka daryeelka kansarka qanjirka 'prostate'

Juun 12, 2024 Weydiimaha warbaahinta ([Media inquiries](#))

Dowladda Alberta waxay la kaashanaysaa Hay'adda Kansarka Alberta si ay ugu keento dadka reer Alberta natiijooyinka ogaanshaha ee qaba kansarka qanjirka 'prostate'.

Qiyaastii mid ka mid ah lixdii nin ee Alberta ayaa ku dhici doona kansarka qanjirka 'prostate' inta ay nool yihiin, Usbuucan oo ah Usbuuca Caafimaadka Ragga, dawladda Alberta waxay taageersaa habab cusub oo lagu wanaajiyo daryeelka kansarka qanjirka 'prostate'. Baaritaanka hore iyo ka hortagga ayaa muhiim u ah hubinta in kuwa laga helay ay heli karaan daaweyn habboon oo ay ka soo kabtaan si ay ugu noolaadaan nolol caafimaad leh.

Iyada oo la adeegsanayo maalgelinta \$3 milyan doolar muddo laba sano ah, Alberta waxay kordhin doontaa helitaanka antigen xuubka qanjirka 'prostate' (PSMA) sawir qaadista positron (PET) iyo sawir qaadista kombuyuutar (CT) ee Alberta. Lacagahaas waxaa la barbar dhigi doonaa Hay'adda Kansarka Alberta oo ay ku bixinayso wadarta maalgelin dhan \$6 milyan doolar.

Baaritaannada PET/CT waa baaritaannada sawir qaadista ee shaqeynaya oo adeegsada raadraacayaasha shucaaca si ay u muujiyaan unugyada iyo shaqada xubnaha. Baadhitaanadani waxay caawiyaan ogaanshaha kansarrada qaarkood, qiimeeyaan ilaa inta uu kansarku faafo oo la go'aamiyo haddii daawadu shaqaynayso. Hadda, baarista PSMA PET/CT waxa lagu heli karaa tijaabo caafimaad oo keliya, maalgelintan waxay ka dhigi doontaa baarista dad badan inta ay sugayaan dib u eegista iyo maalgelinta Wakaaladda Dawooyinka Kanada.

Ballaarinta helitaanka tijaabooyinkan caafimaad waxay furi doontaa faa'iidooyinka ogaanshaha iyo qorshaynta daawaynta ka sii wanaagsan si loo wanaajiyo natiijooyinka daryeelka kuwa qaba kansarka qanjirka 'prostate' lana yareeyo baarista iyo qalliinnada aan loo baahnayn, taasoo u oggolaanaysa ku dhawaad 2,000 oo reer Alberta ah inay helaan tijaabooyinka caafimaad sannadkii.

"Kansarka qanjirka 'prostate' waa mid ka mid ah sababaha ugu horreeya ee dhimashada kansarka ee ragga Alberta. Maalgelintani waxay taageeri doontaa nooc gaar ah oo tijaabo caafimaad ah si loo kordhiyo helitaanka tignoolajiyada hore loo caddeeyey si loo hagaajiyo ogaanshaha iyo dejinta saxnaanta bukaannada kansarka qanjirka 'prostate' iyo bukaannada qaba kansarka soo noqnoqda ee u baahan daryeel dabagal ah. Toddobaadkan Caafimaadka Ragga, waxaan jeclaan lahaa inaan xasuusiyo reer Alberta in ogaanshaha hore ee kansarka qanjirka 'prostate' uu badbaadiyo nololsha, waxaanan ku dhiirigelinayaa Albertan kasta inuu kor u qaado wacyiga arrimaha caafimaadka ragga."

*Adriana LaGrange, Wasiirka Caafimaadka*

Xirfadlayaasha caafimaadku waxay hadda ku tiirsan yihiin CT ga iyo baarista lafaha si ay u ogaadaan oo ay u maraan kansarka qanjirka 'prostate'. Dhakhaatiirta Oncologists iyo shucaaca nukliyeerka waxay tixgeliyaan baaritaanka PSMA PET/CT inay waxtar badan u leeyihiin samaynta kansarka qanjirka 'prostate' ee khatarta badan iyo soo noqnoqda, taasoo horseedaysa baaritaanno sax ah iyo go'aamo daaweyn oo xog ogaal ah.

Maalgelintani waxay taageeri doontaa gelitaanka baarista PSMA PET/CT ee Machadka Isbitaalka Cancer Cross iyo Royal Alexandra ee Edmonton iyo Xarunta Caafimaadka Foothills ee Kaalgari.

## **Xaqiiqooyinka degdeg ah**

- Baaritaannada PET/CT waxay isticmaalaan raad raacayaal shucaac ah oo soo saara PSMA, borotiinka xaddi badan laga helo unugyada kansarka qanjirka 'prostate' oo loo isticmaalo in lagu ogaado kansarka qanjirka 'prostate' ee jirka oo dhan.
- Khatarta ah inuu ku dhaco kansarka qanjirka 'prostate' wuxuu bilaabaa inuu kordho markuu da'da gaaro 40 jir.
- Mid ka mid ah 30kii nin ee reer Alberta ee laga helay kansarka qanjirka 'prostate' ma noolaan doono.
- Qiyaastii boqolkiiba shan kansarka qanjirka 'prostate' waa laga hortagi karaa.
