

**1.1 CONSTRUCTION OF ASPHALT STABILIZED BASE COURSE (ASBC) FILLETS**

The Contractor shall place ASBC fillets on the surface of the new ASBC construction at the following locations, as directed by the Consultant.

HIGHWAY	LOCATION

The fillets shall be "feathered-out" sufficiently from the edge of the existing \_\_\_\_\_ to provide a smooth transition from the \_\_\_\_\_ surface to the ASBC surface and to provide safe passage of traffic at the completion of the work.

Payment for the construction of asphalt stabilized base course fillets will be made at the unit price bid for "Asphalt Stabilized Base Course".
